# FUN DAY 2021

## Helmet Craft

### INSTRUCTIONS

Cut out the circular face of the clock, and the hour and minute hands. Glue the face of the clock in the center of the paper plate. Carefully use the tip of your pointed scissors to start a hole through the center of the circular face of the clock/plate. If you have a hole punch, make a hole through the hour and minute hands. Push the brass fastener gently through the minute hour hand, the minute hand and the plate, and open the tips of the fastener out flat against the back of the plate. Cut out the numbers, space and paste them evenly around the face of the clock, starting with "12" at the top of the clock. Cut out the texts, match them with their numbers and paste them under the numbers. Then, take time to read God's promises often and hide them in your heart and mind to protect you with God's helmet!
