

Animal Art Instructions

General Instructions: This activity uses your hands, paint and imagination.

- You should wear a cover-up to protect your clothes. Also, cover the table where you are working with a plastic trash bag or plastic table cloth to protect it.
- You will need a few paint colors to help you make your hands-on animal art. If you have a paintbrush or sponge, it will be easier to apply the paint. It is important to clean off your hand between each step, unless you are able to use the same color in another part of the picture.

Animal Art Instructions

MONDAY: Sheep

1. Choose a piece of paper. We used light blue paper as the background for the sheep.
